
Papua New Guinea energy storage cuts orders

Is Papua New Guinea's energy crisis a barrier to economic growth?

Papua New Guinea's energy crisis remains one of the country's most critical barriers to economic growth, a theme that was at the forefront of Minister for International Trade and Investment, Hon. Richard Maru's address at the recent Petroleum and Energy Conference 2024 in Port Moresby.

Can Papua New Guinea achieve 100% electricity access by 2050?

Despite the overwhelming challenges, the Government of Papua New Guinea, under its Electricity Industry Policy (EIP) of 2011, National Energy Policy 2017 - 2027, Development Strategic Plan 2010-2030 and Vision 2050, has expressed the goal of attaining 70% access by 2030 and 100% access by 2050.

Will Papua New Guinea rollout the National Electricity rollout plan?

During the 2018 APEC hosted in Port Moresby, Australia along with the United States, New Zealand and Japan pledged to assist the government of Papua New Guinea to rollout the National Electricity Roll Out Plan (NEROP) to meet its target of 70% of its population connected to electricity by 2030 and 100% by 2050.
