
Papua New Guinea sells outdoor power

Who owns power in PNG?

PPL, the state-owned power utility, owns 440 MW of capacity, including 65% of hydro and geothermal. Oil Search and ExxonMobil dominate the oil and gas sector. PNG's power grid is fragmented and suffers from frequent outages. Oil and gas represent 64% of the power mix. Total energy consumption is predominantly made up of oil and biomass.

Who controls the energy sector in PNG?

The energy sector is under the control of the Department of Petroleum and Energy (DPE), through two main divisions: Petroleum Division (oil and gas) and Energy Division (electricity and renewables). PPL, PNG Power Limited, is the integrated state-owned power company.

Does PNG need a National Energy Authority?

PNG's National Energy Policy, 2017-2027, also proposes the establishment of a National Energy Authority 'to regulate and promote the development, dissemination of information, regulation and licensing relating to all forms of energy, including non-renewable and renewable energy sources'.

How many people in PNG have electricity?

In the early 2000s, less than 10 percent of PNG's population had access to electricity. In recent years, the PNG government announced an ambitious target to accelerate progress - 70 percent of its people will have access to reliable electricity by 2030.
