
Papua New Guinea solar glass production and wholesale

Can photovoltaics bring electricity to rural Papua New Guinea?

Using photovoltaics to bring electricity to rural Papua New Guinea. Whether your project is 5kW for your house or 5MW for a solar farm, our Certified Solar Energy Systems Design team is ready to assist-- contact us today to get started. Whether you already know what you need or are still exploring your options, we're here to help.

Are Papua New Guinea's first electric vehicles coming to Port Moresby?

Papua New Guinea's first plug-in electric vehicles (EVs) - two cargo vans and a passenger bus - have appeared on the streets of Port Moresby. Ruby Gamoga reports. Improved access to finance could the rapid development of solar power, according to Jon Pittar, Managing Director of solar provider, Solar Solutions PNG.

Does PNG have a solar farm?

At the utility scale, PNG has a few solar farms under development, with largely unchanged progress as most of the obstacles here are regulatory more than economic. PNG Power Ltd and the Department of Energy are supportive of these projects, but there are a lot of moving parts and all parties have worked hard to keep them on track.

Will solar reshape the PNG economy?

'It's clear that solar is going to reshape the PNG economy, much like mobile phones did 15 years ago.' We have been collaborating with the Climate Change and Development Authority (CCDA), which is a part of the Environment Ministry.
