
Phoenix brand solar water pump

What is a solar powered water pump?

A solar powered water pump is an eco-friendly, off-grid solution that uses solar energy to move water from wells, rivers, ponds, or tanks--without needing electricity or fuel. Perfect for farms, homes, and remote areas, these pumps are powered by photovoltaic panels and come in both surface and submersible options.

Who makes solar water pumps?

WBSbegan producing water pumps in 1998. In 2008,we independently developed and produced solar water pumps. We have OEM production for more than 200 solar pump dealers around the world. Over the past 10 years,we have produced more than 150,000 sets of solar water pumps that have been exported to other parts of the world.

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance,a solar-powered water pump is what you should look for. It's 100% green,efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

What is a solar water pump kit?

The Solariver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.
