## Porto Novo Solar Water Pump

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

What is a solar water pump kit?

The Solariver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.

How to use a solar water pump?

The Sunsbell Solar Water Pump is ideal for a garden patio or pond. It comes in with a 3 m long cable and 4 different nozzle heads. It's very easy to use- just immerse the pump under water, place the panel under full sunlight and it will start automatically. Besides, the beautiful waterfall will give your garden a unique, special look.

Is a solar water pump a good investment?

It's an anti-corrosive, which guarantees long life service, making it an excellent investment. Given its significant power, this solar-powered water pump is ideal for larger applications, such as the drainage or shipping or aquaculture. It also serves as a high pump in the mineral industry.
