# Power breaker switch in China in New-Zealand

What is a circuit breaker?

Explore circuit breakers, the foundation of safe power distributions and the main protection from electrically-caused fires. Protect each line carrying energy or supplying appliances by choosing the correct sized circuit breaker, that will automatically disconnect in the event of a short circuit, or a cable overload.

What are the different types of circuit breaker products?

We produce 28 major product groups including, Power Tool Switches, Household Switches, Motor Protection, Leakage Protection Plugs and Sockets, Miniature Circuit Breakers, Disconnectors, Change-over Switches, Moulded Case Circuit Breakers, AC Connectors, Industrial Plugs and Sockets amongst others.

Who makes panel mounted main switches?

For panel mounted main switches in domestic, commercial or industrial applications, PDL by Schneider Electric's S-Series is a recognised industry leader. Operating from 35 to 300 ampere, the S-Series of enclosed main switches will reliably meet your application needs.

What types of switches are available?

Essential for performing maintenance work or inspections on equipment, the range includes modular, standard, remote trip switches, switches with visible or positive break indication and enclosed options to suit up to 415V AC and 1500V DC applications.

100% NZ owned and operated. We are a leading renewable/solar energy company with technical support from qualified electricians and electrical engineers.

Isolators and Load Break Switches With the ever-growing demand to expand our power distribution networks, the need for safe and reliable isolation ...

Robust protection, tailored capability and discrete installation. PDLs range includes circuit breakers, switches, meters, enclosures and switchboards.
