# Price of installing solar panels in Kuala Lumpur

How much do solar panels cost in Malaysia?

The cost of installing solar panels in Malaysia can vary depending on several factors, including the size of the system, the location and the type of solar panels used. According to Sustainable Energy Development Authority (SEDA) Malaysia, the average cost of a solar panel system in Malaysia is around RM7.00 per watt.

Can You DIY solar panels in Malaysia?

No. Installing a home solar system by doing-it-yourself might be appealing, but several factors discourage DIY solar panel installation in Malaysia: Solar panels in Malaysia are not readily available to the public. Procuring the required equipment may be challenging and could lead to higher costs and logistical hurdles.

Can solar panels save money in Malaysia?

The Malaysian government, through programmes such as Net Energy Metering (NEM) scheme, allows solar panels owners to sell excess energy back to the grid, reducing electricity costs further. Additionally, tax incentives may be available for those who install solar panels, which can significantly reduce the overall cost.
