
Price of waterproof collapsible containers for European airports

Are collapsible containers airworthy?

Yes, all our collapsible containers comply fully with civil aviation regulations. They are completely airworthy, and they can be restrained directly by the Cargo Loading System of any compatible aircraft. Are special tools needed to operate a collapsible ULD? You don't need any special tools to operate our collapsible containers.

What is a collapsible container?

Collapsible containers can be used to transport cargo in the usual way, but they can also be folded and stacked when you need to store or reposition them. This feature maximises your ULD storage capacity and lets you relocate empty ULDs more efficiently and cost-effectively, which in turn helps rebalance ULD stocks around the world.

What is a heavy duty collapsible bulk container?

Our heavy duty collapsible bulk containers are part of the BulkPak™ line and transport even bulky, hard-to-fit parts safely. At the same time, the large FLCs hold up to 900 kg. With a return ratio of up to 1 : 2,6, the collapsible bulk containers optimise space utilisation during storage and return transport.

What is a collapsible bulk container with extended length?

The collapsible bulk container with extended length is designed to handle extremely long and hard-to-fit parts. All extra long bulk containers are available with wide access doors and manufactured from high-density polyethylene using a structural foam-molding process for increased durability.
