# Prices of monocrystalline solar modules in China and Europe

How much does a PV module cost in China?

According to price analysis firm InfoLink: "Since March, the spot price of n-type modules in China has soared from RMB0.7/W to RMB0.73/W. Quotes from leading manufacturers are approaching the RMB0.75/W mark." The results of the China Datang Group's 2025-2026 PV module framework. Image: Datang.

How much do solar panels cost in Europe?

The updated guide to photovoltaic module prices shows the latest costs of solar panels across Europe. In August, high-efficiency modules dropped to EUR0.12 per watt, marking an all-time low for the sector. Prices for photovoltaic modules in 2024 continue to fall.

How much does photovoltaic module: polycrystal cost?

CN: Price: Photovoltaic Module: Polycrystal data was reported at 1.450 RMB/W in Aug 2024. This stayed constant from the previous number of 1.450 RMB/W for Jul 2024. CN: Price: Photovoltaic Module: Polycrystal data is updated monthly, averaging 1.637 RMB/W from May 2021 (Median) to Aug 2024, with 40 observations.

How much does a solar module cost in 2025?

Specifically, in August 2025, the Price Index showed: about EUR0.055/Wp for low-cost photovoltaic modules, unchanged from July prices. "Manufacturers are moving quickly to end the devastating price war. The Chinese government is gradually phasing out tax incentives and subsidized solar module exports.

IRENA presents solar photovoltaic module prices for a number of different technologies. Here we use the average yearly price ...

Prices for solar modules have remained largely stable since Intersolar Europe. A shortage though is evident for high capacity modules ...

Image: JinkoSolar Solar module prices in Europe have risen after months of decline, driven by price increases from Chinese ...

China: According to the OPIS Solar Weekly Report released on July 22, the Chinese Module Marker (CMM), the OPIS benchmark ...

Updated photovoltaic module prices 2025: in August, high-efficiency solar panels fell to an average of EUR0.12/Wp in Europe.

PRICE INDEX | October 2025 Photovoltaic Price Index Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate ...

The monocrystalline solar module market is booming, driven by high efficiency and growing

---

renewable energy demand. Explore market size projections, key players (LONGI, JA ...

Polysilicon imports into China, which leads the world's solar module production, increased almost in lock-step with the spot price. 2010 ...

The introduction explains how monocrystalline solar cells and modules could grab so much market share from the once dominant multicrystalline technology within just three years.

China's latest tender results show the spot price of n-type modules increasing from RMB0.7/W to as much as RMB0.75/W.

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends ...

IRENA presents solar photovoltaic module prices for a number of different technologies. Here we use the average yearly price for technologies "Thin film a-Si/u-Si or ...

As the world shifts towards sustainable energy, solar power has emerged as a leading solution, particularly in China. Understanding the cost of solar panels in this rapidly ...

at a good price at very good prices We have sweaters at a very good price We have sweaters at ...
