
Progress of the Cebu Energy Storage Project in the Philippines

What is MGen's new energy storage facility in Cebu?

The Cebu facility is the second for MGEN after the planned 4,500 megawatt-hour energy storage project in Nueva Ecija, which broke ground in November 2024. /PNA MGEN's 49MW Battery Energy Storage System in Toledo, Cebu, targets full completion by 2027, boosting Visayas grid stability and clean energy transition.

Does Cebu need more power investments?

DOE Central Visayas Director Renante Sevilla lauded the BESS project in Mactan, saying that Cebu needs additional power investments given its rapid progress. /KOC

What's new at MGen Cebu?

The Cebu facility is the second for MGEN after the planned 4,500 megawatt-hour energy storage project in Nueva Ecija, which broke ground in November 2024. President Ferdinand R. Marcos Jr. was present during the groundbreaking of the Terra Solar Project, the largest integrated solar and battery storage facility in the world to date. (PNA)

Will Aboitiz Power build a hybrid battery energy storage system in Mactan?

Aboitiz Power Corporation (AboitizPower), through its subsidiary East Asia Utilities Corporation (EAUC), is set to construct a 30-megawatt (MW) hybrid Battery Energy Storage System (BESS) within the Mactan Economic Zone, reinforcing efforts to improve grid reliability in the Visayas region.

The 30-MW hybrid Battery Energy Storage System will be built inside the compound of EAUC's facility at the Mactan Economic Zone in Lapu-Lapu City, Mactan Island, ...

Seashell Petroleum Energy Corporation has launched its state-of-the-art oil depot in Pitalo, San Fernando, Cebu, positioning the ...

The project features a 3,500 megawatts peak (MWp) of solar power and a 4,500 MWhr battery storage system, designed to provide clean, reliable energy to the Philippines, ...

The Department of Energy (DOE) of the Philippines endorsed 17 power generation projects to the National Grid Corporation of the Philippines (NGCP) in June 2025, highlighting ...

AboitizPower breaks ground on a P1.2 billion, 30-MW hybrid battery energy storage system in Mactan, Cebu, set for May 2026 operation to boost

CEBU, Philippines -- Cebu's energy sector received a significant push following the launch of Aboitiz Power's P1.2 billion, 30-megawatt hybrid Battery Energy Storage System ...

MGEN's 49MW Battery Energy Storage System in Toledo, Cebu, targets full completion by 2027, boosting Visayas grid stability and clean energy transition.

Aboitiz Power Corporation has announced plans to construct a 30-megawatt hybrid battery energy storage system (BESS) within the Mactan Economic Zone in Lapu-Lapu City, ...

The Department of Energy (DOE) has authorized the National Grid Corporation of the Philippines (NGCP) to conduct a system impact study (SIS) on 19 green energy projects. ...

AboitizPower is set to build a 30-MW battery energy storage system in the Mactan Economic Zone. The project targeted for completion ...

The National Grid Corporation of the Philippines has reported significant progress in three major energy infrastructure projects aimed at ...

The Cebu facility is the second for MGEN after the planned 4,500 megawatt-hour energy storage project in Nueva Ecija, which broke ground in November 2024. President ...

All laughs aside, companies using storage solutions report 80% fewer "brownout panic attacks" among operations managers. Future-Proofing Philippine Industries With the ...
