How to choose the right inverter in Ireland?

In Ireland, the right inverter type can boost your energy efficiency and even enable future battery storage. Choosing between a string inverter, hybrid inverter, or microinverter depends on your roof layout, shading, and energy goals. One central unit for all panels - best for unshaded roofs and lowest cost.

Are thin film solar panels used in Ireland?

Thin film panels are flexible and portable, but rarely used in Irish homes. Inverters convert solar energy into usable electricity; string inverters are most common in Ireland. Microinverters and hybrid inverters offer better performance for shaded or complex roofs. SEAI-approved systems must use certified inverters and panel types.
