## Rotatable solar glass

What is mitrex solar glass?

Let the light in with Mitrex Solar Glass -- a powerhouse in disguise, where photovoltaics meet limitless design, where color meets clarity. You're not just choosing glass; you're choosing a future where sustainability is clear as day. Where photovoltaics meet limitless design, where color meets clarity.

What is a solar cell cover glass?

Our Solar Cell Cover Glasses offer a range of technical advantages when used for space or terrestrial applications such as photovoltaic systems and optical solar reflectors. Transmittance across the spectrum from UV-A to near-infrared is excellent, while low-wavelength UV radiation is effectively blocked.

Why should you choose Schott Solar cell cover glass?

Design opportunities are further enhanced by the availability of different coatings. SCHOTT's Solar Cell Cover Glasses are available as two variants, SCHOTT's Solar Glass 0787 and SCHOTT's Solar Glass sphere, each one providing specific technical properties for challenging environments.

Why do photovoltaics need solar glass?

Whether on Earth or in space, photovoltaics require technical solar glass for protection from harsh environments, as well as to sustain high transmittance in the visible spectrum of light up to near-infrared that increases the efficiency of the cell while shielding against harmful radiation.

SCHOTT's Solar Glass utilized as cover glass, provides solid protection for high-performance solar cells. By combining lightweight, extremely durable materials with outstanding optical ...

Our passion is glass and we live this every day, for over 40 years. So we have invested a lot of time and money in research and development of modern special glasses for ...

Explore the future of solar glass with New Way Glass, China's leading supplier of high-quality photovoltaic (PV) glass. We ...
