
Saudi Arabia shuts down solar panel manufacturers

Why is Saudi Arabia embracing solar power?

Roula Khalaf, Editor of the FT, selects her favourite stories in this weekly newsletter. Saudi Arabia's big businesses are embracing solar power as they seek to save on energy costs after the government eliminated electricity subsidies in the world's largest oil exporter.

Will Saudi Arabia invest in solar energy?

Although the Saudi government aims to source half of its energy from renewables by 2030, experts say the most immediate driver of commercial solar investment is the 2018 decision to phase out power subsidies.

Does Saudi Arabia have solar technology?

Solar technologies deployed in Saudi Arabia to maximize energy efficiency. According to Christopher Decker, partner in energy and natural resources at Oliver Wyman, India, Middle East and Africa, Saudi Arabia is at the forefront of innovative solar technologies aimed at maximizing energy efficiency and sustainability in the region.

Can Saudi Arabia become a leading solar PV manufacturer?

"Saudi Arabia's low production costs, compared to other markets, are crucial for achieving its goal of becoming a leading solar PV manufacturer," said Yousef M. Alshammari, CEO and head of energy strategy at the London-based global energy research consultancy CMarkits.

"In the medium to long term, Saudi Arabia's emergence as a major solar panel manufacturer could challenge the market shares of traditional suppliers," Faeq said.
