
Singapore solar aluminum room tiles

Are solar roof tiles a good choice for Singaporeans?

Companies like Tesla have popularised them as an aesthetically pleasing alternative to traditional solar panels. But are they really the best choice for Singaporean homeowners? While solar roof tiles offer a sleek,integrated design,they come with major drawbacks--especially in Singapore.

What is on-roof solar panel installation for tile roofs?

Our on-roof solar panel installation for tile roofs features specially fabricated brackets. These brackets are securely fitted between the structures of the roof tiles to support the solar panels,ensuring stability without compromising the integrity of your roof.

Are solar roof tiles a good choice?

Solar roof tiles are designed to blend seamlessly with your existing roof, offering a cleaner and more discreet appearance. However, this aesthetic advantage comes at the cost of efficiency. Traditional solar panels have higher energy efficiency, meaning they generate more electricity per square meter (compare solar technologies).

What is a goodwe solar roof tile?

The GoodWe Sunshine Series is an integrated solar roof tile solutionfor pitched rooftops to replace traditional solar panels and framework for a sleek,aesthetically-pleasing result,that also maximises your rooftop space for more solar production. The integrated tempered double-glass structure ensures the safety of the roof structure.

We specialize in commercial and residential solar installations, as well as BIPV and BAPV technologies, including glass solar canopies, solar tiles, and solar facades.

The Sunshine Series is made up of extra tough solar roof tiles with integrated photovoltaic cells, compatible with normal roof shingles, easy to install.
