
Slovakia solar Glass Processing Plant

Why did Agora solar choose a glass-glass production line?

Agora Solar deliberately chose a production line that can be converted to other formats in a short time, noting that it also plans to manufacture semi-transparent, glass-glass modules for building-integrated photovoltaic (BIPV) systems.

Will a 150MW solar module factory be built in vranow?

From pv magazine Germany Slovakia-based Agora Solar a.s. is planning to set up a 150MW solar module factory in Vranow, in the eastern part of the country. The company said it has already identified a suitable building in an industrial park located in the area and that production capacity may eventually reach 500MW by 2024.

Where is Agora solar building a 150MW factory?

Slovak manufacturer Agora Solar is planning to build a 150MW factory in Vranow, in the eastern part of the country. The facility will produce glass-glass panels and may reach a capacity of 500MW by 2024. The factory's halls are currently being used to collect and distribute donations of clothes and goods for refugees from Ukraine.
