
Small Solar Power Generation System in San Jose

How much do solar panels cost in San Jose?

As of May 2024, the average solar panel system costs \$2.59/W including installation in San Jose, CA. For a 5 kW installation, this comes out to about \$12,951 before incentives, though prices range from \$11,008 to \$14,894. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

How much does a 5 kW solar system cost in San Jose?

While a 5 kW system will only cost you \$12,951 in San Jose, CA, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in San Jose, CA?
