Solar Inverter Repair Experts. Inverter Service has been repairing electronic equipment and Solar Inverters across Australia since 1975. We have worked with many of the leading electronic goods manufacturers and distributors world wide, namely Canon, Clenergy, Origin, Panasonic, Sharp and Sony.

How much does a 6 kW solar system cost in Georgia?

A 6 kW solar system will cost about \$13,980 in Georgia before incentives. After the 30% federal solar tax credit, this drops to \$9,786, or about \$1.63 per watt. The total cost of a solar system will vary depending on the company you choose, the size of the system, the equipment installed and how you finance it.

How much does solar cost per watt in Georgia?

The cost per watt makes it easier to compare prices between quotes and gives you a better idea of how fairly the system is priced. The average price of solar is about \$1.86 to \$2.8 per watt in Georgia, so anything in that range is a fair price. Some prices may be too good to be true.
