
Solar container energy storage system factory in Switzerland

Where is the largest battery storage system in Switzerland?

In Kappel, in the canton of Solothurn, one of the largest battery storage systems in Switzerland is currently under construction, with a total capacity of 65 megawatt-hours. The successful delivery of all system components marks a key milestone on the path to commissioning. Primeo Energie will use our storage system to provide energy flexibility.

Does Switzerland's new large-scale battery support the Energy Strategy 2050?

The new large-scale battery for Switzerland in Kappel supports the Energy Strategy 2050 and supports renewable energies.

How did Intilion transport containers from China to Switzerland?

INTILION managed the entire transport chain from China to Switzerland - including shipping, customs clearance, and interim storage. Instead of relying on a complex road transport solution, INTILION chose an alternative approach: all 16 containers were transported together by inland vessel along the Rhine, from Rotterdam to Birsfelden.

Why did Intilion organize a lithium-capable interim storage facility?

Philipp Knaup, COO of INTILION AG To optimally support the construction progress, INTILION organized a lithium-capable interim storage facility with the highest safety standards near the project site. This made it possible to adapt deliveries flexibly to the construction phases.

GSO's Swiss high-voltage storage plant reduces energy costs via smart tariff optimization, advanced BMS, and safety systems. Delivered in 3 months.

We're excited to take an important step in Switzerland's energy transition together with Primeo Energie. In Kappel, in the canton of Solothurn, one ...

Air-cooled energy storage cabinet aero The newly launched Aqua series comprises three standard energy storage products - Aqua-C, Aqua-E, and Aqua-E Pro. Aqua-C is a 4.18 MWh ...

Containerized System Innovations & Cost Benefits Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal ...

Trade body Swissolar has called for a national energy storage strategy to support the rising popularity of home solar-plus-battery ...

Intilion delivers components for a 65-MWh battery storage system in Switzerland for Primeo Energie, with commissioning set to boost grid flexibility. German energy storage ...

Since March 26, 2021, a large-scale energy storage system with a capacity of 1.25 megawatts

and 1.3 megawatt-hours has been operational for Rhienergie AG in Graubünden, ...

Trade body Swissolar has called for a national energy storage strategy to support the rising popularity of home solar-plus-battery systems in the country.

We're excited to take an important step in Switzerland's energy transition together with Primeo Energie. In Kappel, in the canton of Solothurn, one of the largest battery storage systems in ...

German energy storage solutions provider Intilion has delivered the components for a 65-MWh battery storage system in Switzerland, the company said on Tuesday. The firm ...

Detailed info and reviews on 10 top Energy Storage companies and startups in Switzerland in 2025. Get the latest updates on their products, jobs, funding, investors, ...

The Switzerland energy storage system market is experiencing significant growth driven by factors such as increasing renewable energy integration, grid stability requirements, and ...

German energy storage solutions provider Intilion has delivered the components for a 65-MWh battery storage system in ...
