
Solar glass house production in Latvia

Does Latvia have solar energy?

So far, however, the development of solar energy in the country has been rather limited.

According to Latvia's grid-operator Sadales tīkls AS, which is a subsidiary of Latvenergo, there was just 1.3 MW of renewable energy power installed under net metering at the end of 2016.

Where can Photovoltaic Glass be used?

Our photovoltaic glass has already been installed in a wide variety of buildings in more than 350 projects worldwide. Buildings such as corporate offices, hotels, skyscrapers, airports, railway stations, government buildings, museums, and even historic buildings can benefit from our photovoltaic glass solutions.

Which buildings can benefit from Photovoltaic Glass Solutions?

Buildings such as corporate offices, hotels, skyscrapers, airports, railway stations, government buildings, museums, and even historic buildings can benefit from our photovoltaic glass solutions. Dubai Frame

Onyx Solar is the global leading manufacturer of photovoltaic glass for buildings. The company is based in Vilnius, Lithuania, and has offices in the ...
