
Solar panels instead of roofs

What are the best alternatives to rooftop solar panels?

We'll break down the top alternatives to rooftop solar panels - community solar, ground-mounted solar, solar sheds, and solar shingles. Community solar is one of the best ways to enjoy the benefits of solar without putting solar equipment on your property, and it's an especially good option for renters.

Should I choose a roof or a ground-mounted solar system?

If your roof works for solar and can fit enough solar panels to meet your energy needs, it's usually best to choose rooftop solar panels. If you need a really large system that won't fit on your roof and you have enough open land, opt for ground-mounted panels.

Are ground-mounted solar panels a good alternative to rooftop solar?

Ground-mounted solar panels are a great alternative for customers who want solar - but don't have a roof that's suitable for them. On top of being an alternative to rooftop solar, ground-mounted solar systems can be used on farms, in your garden, and more!

Solar that fits every curve Waaree Flexible PV modules stand out with their ultra-light design, easy integration, and ability to deliver clean energy where rigid panels can't go. Discover how they ...
