
Solar power station for home in Slovakia

Who is Slovak solar?

Slovak Solar s.r.o. is a leading photovoltaic wholesaler in Slovakia, Czech Republic and Austria, with a vision to create a sustainable energy future. We started our journey in 2009 with the main idea - to provide companies specialised in the installation of solar systems with access to first-class photovoltaic products, all from one place.

Why should you choose Slovak solar?

At Slovak Solar, we believe that progress comes from constant innovation. From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV).

Which power stations are in Slovakia?

The following page lists power stations in Slovakia . / 48.491; 17.672 (Bohunice Nuclear Power Plant, Unit 1) / 48.491; 17.672 (Bohunice Nuclear Power Plant, Unit 1) / 48.492; 17.676 (Bohunice Nuclear Power Plant, Unit 2) / 48.497; 17.691 (Bohunice Nuclear Power Plant, Unit 3) / 48.496; 17.693 (Bohunice Nuclear Power Plant, Unit 4)

What is the main source of electricity in Slovakia?

Nuclear power plants are the main source of electricity production in Slovakia. In 2022, over 59 percent of total electricity generation in the country was derived from this source. By comparison, hydroelectric power plants accounted for 13.7 percent of power production, the most of any renewable source.

We offer photovoltaic panels, photovoltaic inverters, battery storage and other components necessary for the construction and installation of solar energy systems. We have ...

Due to changes in legislature and the introduction of the option of a „local source of electricity“ for own use up to 500 kWp of installed capacity since January 2019, we started to ...

A Spotlight on Renewables in the Slovak Republic The Slovak Republic (SR) became an independent nation in 1993. In 2000, it became a member of the Organization for ...

Power Plants in Slovakia Slovakia has 30 utility-scale power plants in operation, with a total capacity of 6230.9 MW.

As Slovakia accelerates its shift toward renewable energy, solar power plays a pivotal role. The country is witnessing a surge in solar installations, driven by government ...

Does Slovakia have a rooftop solar energy potential? According to the report Rooftop Photovoltaic Energy Potential in Slovakia (2023), drafted for SAPI by Energiewerkstatt, Slovakia has a ...

Explore the solar photovoltaic (PV) potential across 64 locations in Slovakia, from Rabca to

Cícov. We have utilized empirical solar and meteorological ...

The company specializes in the design and implementation of photovoltaic power plants and systems, offering a wide range of solar equipment, including panels and smart battery storage ...

Browse the top 10 solar power stations of 2025 and discover which sustainable energy solution will seamlessly enhance your home life.

The 7 Best Solar Generators Reliably Keep Devices and Small Appliances Running in a Pinch

An overview of the main manufacturers of electric vehicle charging stations in Slovakia offering innovative solutions for sustainable ...

Explore the solar photovoltaic (PV) potential across 64 locations in Slovakia, from Rabca to Cícov. We have utilized empirical solar and meteorological data obtained from NASA's POWER API ...

Soaring energy prices, new re-served capacities for renewables, and a few incentive schemes, among other factors, are likely to result in new large-scale solar PV plants being deployed in ...

Choose Solar Power Solutions Pvt. Ltd as your preferred solar partner in Slovakia, and experience the benefits of clean, renewable energy. Contact us today to explore how solar ...
