
St George export solar panels

Where will the St George solar project be built?

The St. George PV project will be built on the brownfield site of the former Silistra airport, in the northeast of Bulgaria. Rezolv said that the 229MW site will comprise around 400,000 solar modules and is expected to come online in 2025.

What is the St George PV project?

The goal is simple: to map out the PV module supply channels to the U.S. out to 2026 and beyond. The St. George PV project will be built on the brownfield site of the former Silistra airport and constructed by three EPC contractors.

Is St George a "largest" PV project in Bulgaria?

When it announced the site back in July 2023, Rezolv said it would be the "largest" PV project in Bulgaria upon completion. Power from St. George will be sold to commercial and industrial users through power purchase agreements (PPA), the first of which Rezolv said would be announced "very soon".

When will the St George site be online?

The St George site is expected online in 2025. Image: Rezolv Energy Czech independent power producer (IPP) Rezolv Energy has signed engineering, procurement and construction (EPC) contracts with three companies to build a 229MW solar PV project in Bulgaria.

Rezolv Energy is building the 225 MW St. George solar park in Bulgaria, transforming an abandoned airport into a renewable energy hub with nearly 400,000 bifacial ...

Rezolv Energy is a highly experienced, independent renewable energy producer. Rezolv announced on Monday that it has contracted three companies to build the 229-MW St. ...

The St George solar farm is being constructed on a 165-hectare brownfield site at the former Silistra airport. Once completed, nearly 400,000 solar panels will generate over 310 ...

St. George, on a former military airfield near Polkovnik Lambrinovo in NE Bulgaria, will soon become one of the country's largest solar plants with 400,000 panels.

The project The St. George solar park will be constructed on the site of the former Silistra Airport, covering an area of 165 hectares. The project will comprise nearly 400,000 ...
