## Suitable inverter manufacturers in New Zealand

Which is the best solar inverter for NZ conditions?

Or read on to find out which is the best inverter for NZ conditions. In our opinion, Austrian-based company Fronius, offers the best solar inverters on the market right now, hands down. While they aren't the cheapest option, they do offer the best value. Here's why. The longer your solar system lasts, the more free power you'll enjoy.

What types of solar inverters are available in Aotearoa?

Victron inverters are also super versatile, allowing you to connect solar batteries, generators, and even other forms of renewable power generation, such as wind turbines and micro-hydro solutions. Now, hybrid inverters are fast becoming the most popular type of solar inverter available in Aotearoa.

What is a goodwe solar inverter?

Solar inverters for a range of applications GoodWe solar inverters can be used in a range of applications including residential and commercial rooftops, industrial and utility scale systems and range in size from 0.7 kW to 250 kW. M+H Power have carefully selected GoodWe as a partner with their Hybrid Range of inverter products.

Can a grid-tied inverter be used with a solar battery?

As the name implies, grid-tied inverters are connected straight to the grid. This means that they can't be used in conjunction with solar batteries but work well as more cost-effective options if a battery isn't what you're after. In New Zealand, we strongly recommend GoodWe's range of inverters.
