## Swedish XHD solar container battery

Is Axpo launching a large-scale battery storage facility in Sweden?

12.02.2024 - The commissioning of Axpo's first large-scale battery storage facility in Sweden, announced today, marks the latest milestone in the expansion of its battery business. The 20MW/20MWh plant, connected to the electricity grid by local energy company Landskrona Energi, follows several projects in Switzerland and Europe.

Why should you invest in batteries in Sweden?

Batteries enable the phasing out of fossil fuels and increase flexibility in the electricity system through energy storage. The Swedish battery industry is at the forefront. Sweden also has related strengths and opportunities in areas such as vehicles and electrical systems, as well as a strong mining cluster.

Are batteries the key to achieving Sweden's climate goals?

Batteries are a crucial piece of the puzzle if we are to achieve Sweden's climate goals with net-zero emissions by 2045. Batteries enable the phasing out of fossil fuels and increase flexibility in the electricity system through energy storage. The Swedish battery industry is at the forefront.

What is 20MW 20mwh lithium-ion based battery storage?

The new 20MW/20MWh lithium-ion based battery storage facility will be used to help balance electricity supply in the region and has been connected to the grid by Landskrona Energi, a local energy supplier. With 20 MW, around 4000 households could be supplied with electricity for one hour. Did you miss that?
