## Switchgear equipment in China in Mombasa

Why is China's switchgear industry important?

The Chinese government is increasingly prioritizing green technologies, pushing companies to adopt sustainable practices. Furthermore, the global market relevance of China's switchgear industry is significant, as it is one of the largest producers and consumers of electrical equipment.

What is a switchgear used for?

It includes in one unit two switches that can connect the load to either or both main conductors, and a fusible switch or circuit breaker and switch that feed a distribution transformer. This type of switchgear is used for medium-voltage power distribution, from 7.2kV to about 36kV volts.

How much does a switchgear cost?

You can expect to pay between 500 to 20000 for each Switchgear. The cost of a Switchgear varies by the different parameters. Our electronics supplier database is a comprehensive list of the key suppliers, manufacturers (factories), wholesalers, trading companies in the electronics industry.
