
Switzerland's first solar energy storage in Zurich

What is solar & storage live Zurich 2026?

After the great success of Solar & Storage Live Zurich 2025, we are delighted to invite you to join us again in 2026 - as we continue driving the transition towards a brighter, greener future! Our mission is to accelerate the adoption of solar energy propelling us towards a global landscape powered by clean, renewable energy sources.

What is the future of electricity storage in Switzerland?

One important pillar of this strategy is the further development of electricity storage capacity in Switzerland. In the next years, three large-scale pumped hydro storage power plants will be connected to the grid. The first, the Limmern pumped storage plant (1 GW), should become operational in 2016.

What is solar & storage live?

Solar & Storage Live offers you a unique opportunity to connect with a large and targeted audience of Swiss solar professionals looking for the latest solar and storage products and services. Download the prospectus to discover more about why you need to be involved in this exciting opportunity to drive your business forward!

Welcome Energy storage is rapidly become more and more relevant due to the increasing renewable energy fraction in the grid, the rise of photovoltaics and the increase in ...

Detailed info and reviews on 10 top Energy Storage companies and startups in Switzerland in 2025. Get the latest updates on their products, jobs, funding, investors, ...

But with Switzerland's track record in balancing ecology and innovation, this could set new standards for sustainable energy storage. As European countries scramble to meet ...

In Switzerland, approximately half of all residential photovoltaic (PV) systems are now paired with battery energy storage systems (BESS), reflecting a growing trend toward ...

Welcome Energy storage is rapidly become more and more relevant due to the increasing renewable energy fraction in the grid, the ...

The Switzerland energy storage system market is experiencing significant growth driven by factors such as increasing renewable energy integration, grid stability requirements, and ...

A young start-up with roots at ETH Zurich and HSG wants to solve one of the biggest problems facing the energy transition: seasonal power shortages. The solution is a ...

The SFOE forecasts that by then, approximately 200,000 homes will feature solar panels and energy storage systems. This growth aligns with Switzerland's goal of achieving ...

Solar & Storage Live Zurich 2026 will bring together over 100 leading exhibitors from

Switzerland and beyond, showcasing cutting-edge products, breakthrough solutions, and ...

A young start-up with roots at ETH Zurich and HSG wants to solve one of the biggest problems facing the energy transition: seasonal ...

Trade body Swissolar has called for a national energy storage strategy to support the rising popularity of home solar-plus-battery systems in the country.

Trade body Swissolar has called for a national energy storage strategy to support the rising popularity of home solar-plus-battery ...

Solar & Storage Live Zurich 2026 will bring together over 100 leading exhibitors from Switzerland and beyond, showcasing cutting-edge ...

Zurich's energy storage power station demonstrates how cutting-edge technology meets environmental responsibility. From grid stabilization to enabling renewable integration, such ...
