# T1000 multifunctional 1000w portable power sine wave

How much power does a T-1000 have?

One of the big features of the T-1000 is its relatively compact size and lightweight. It measures 293 x 200 x 205mm centimetres and weighs just 6kg. Inside, the battery capacity is 999Wh, and it can output up to 1000W with a 2000W surge capacity, which, considering the size, is really quite impressive.

Is the T-1000 a good power station?

Ultimately, the T-1000 is a simple but effective power station. If you're looking for a power station to use on-site, this is a great option. Its robust design might actually give it a slight edge over some of the more refined offerings on the market.

What is a greccell 1000W power station?

See more MASSIVE CAPACITY, LIGHTWEIGHT PRESENTATION - GRECELL 1000W power station produces a 1000W (2000W surge) pure sine wave output to power a variety of equipment and tools. Ideal for any situation where more power is needed for more equipment, such as travel, camping or group outdoor activities.

How many USB ports does the T-1000 have?

Taking a look at the port options, there are 4 USB ports, including a USB-C PD 60W and 3 USB Type-A QC 18W. If you really want to put the T-1000 to the test, you can simultaneously power up to 10 devices: 2 AC outputs, the USB-C port mentioned earlier, 3 USB Type-A ports, one wireless charger on top, one carport, and 2 DC outputs.
