## The latest 5G base station in Cape Verde

Will Cabo Verde be the first country to introduce 5G?

Despite the likely challenges of rolling out 5G (and for that matter 4G) to the country's 10 islands Deputy Prime Minister Olavo Correia has been quoted as saying said that Cabo Verde wants to be among the first countries in Africato introduce 5G technology.

Will Cape Verde be able to offer 4G services?

The 4G license awards came after three months of network trials that began in June on the island of Sal,which,with about 34,000 inhabitants,is the fifth most populous island in Cape Verde. The regulator seems happy with the results and has indicated that operators can begin making commercial 4G services available.

Which African countries are looking at 5g?

An interesting new addition to the growing number of African countries looking at 5G is the Republic of Cabo Verde, some 560 kilometres off the west coast of mainland Africa.
