## Tile-type solar panels

What are solar roof tiles?

Just like solar panels, solar roof tiles convert sunlight into electricity, but they're made to look just like traditional roof tiles. Some models are actual roof tiles with integrated solar cells.

Are solar panels better than roof tiles?

Solar panels, that is solar panels on slate roofs, are still the better investment overall compared to solar roof tiles. Roof tiles are expensive because you are ultimately installing a new roof, and while they look great, they can be less efficient than solar panels.

What are the different types of solar tiles?

Solecco Solar - Solecco Solar offers tiles in eight different colours, from smooth grey to terracotta and old English dark red. A 4kW system will cost around £12,000. Edilians solar tiles - Edilians make two types of solar tiles, Solar Max and HP 10 Solar.

What are the different types of solar panels?

One type of solar panel, although still somewhat niche, is solar roof tiles, which blend seamlessly with your roof while generating clean electricity. Solar roof tiles are ideal for those who want the benefits of renewable energy without the traditional look of solar panels. Benefits include, but are not limited to:
