
Tokyo Energy Storage Container Assembly House

What is Tokyo's new battery energy storage system?

This battery energy storage system will be the first to be newly constructed in Tokyo and has been selected for the Tokyo Metropolitan Government's Project to Support the Introduction of Grid-Scale Batteries with an Eye on Expanding the Adoption of Renewable Energy.

Does Tokyo Gas have a battery energy storage system?

Tokyo Gas is also participating in the Japanese utility-scale battery energy storage system (BESS) market, signing a 20-year tolling offtake deal with Australian developer Eku Energy for a forthcoming 30MW/120MWh project.

Will Kamigumi build Tokyo Uminomori battery energy storage system?

Kamigumi to build Tokyo Uminomori Battery Energy Storage System for grid-scale battery business

What is Japan's first energy storage project?

In 2015, we started Japan's first demonstration project covering energy storage connected to the power grid in the Koshikishima, Satsumasendai City, Kagoshima. This project is still operating in a stable manner today. One feature of our grid energy storage system is that it utilizes reused batteries from EVs.
