# Top 10 4000w portable energy storage power supply brands

Can a portable power station be used as an uninterruptible power supply?

Yes, a portable power station can be used as an uninterruptible power supply. Many portable power stations come with UPS features, like automatic switchover when power loss is detected.

What is the best portable power station for backup?

Anker Solix F1200 (1,229Wh): This unit was previously known as the PowerHouse 757 from Anker, and was also CNET's previous pick for "best portable power station for backup." Its UPS mode was one of the earlier units to boast "less than 20ms" switchover time in the event of a power outage. It's also currently \$500 off on Anker's site.

What is the best portable power station?

The EcoFlow Delta Pro is the powerhouse in our "best portable power station" buyer guide. In our tests it performed excellent and it features some high quality specs. Therefore, it deserved its second place in our list. The EcoFlow Delta Pro can power heavy appliances and has an amazing battery capacity of 3600Wh!

Does a portable power station have a 6000W inverter?

More importantly, no other portable power station comes close to touching its 6,000W inverter, and when you put two of these together, you end up with a 12,000W inverter, which means when the power goes out, you can still run your central air conditioning, fridge, microwave, hot tub, and probably the neighbor's house, too.
