# Tunisia Valley Power Storage Equipment Transformation

Why should Tunisia invest in tereg?

" By fostering renewable energy development, TEREG will strengthen Tunisia's position in clean energy, creating economic opportunities and ensuring long-term energy security," said Alexandre Arrobbio, World Bank Country Manager for Tunisia. " This project reflects our strong partnership with Tunisia and supports its sustainable development goals.

How will the World Bank support Tunisia?

New \$430 million World Bank-supported program to support Tunisia's efforts to expand renewable energy, improve electricity reliability, and strengthen sector governance.

How will Tunisia's energy reforms impact the economy?

" The program's reforms--such as reducing technical and commercial losses and increasing the share of renewables--are expected to deliver lasting improvements in the operational and financial performance of the sector, making electricity more affordable and reliable for households and businesses across Tunisia."

How will the tereg program help Tunisia achieve its goals?

The TEREG program is expected to support Tunisia in achieving its goals to mobilize US\$2.8 billion in private investment to add 2.8 gigawatts of new solar and wind capacity by 2028, and create over 30,000 jobs, primarily during the construction phase of renewable projects.

In the electrical energy transformation process, the grid-level energy storage system plays an essential role in balancing power generation and utilization. Batteries have ...

To support the ambitious plans for decarbonizing the Tunisian power system, GET.transform teamed up with GIZ's program, Support for an Accelerated Energy Transition in Tunisia ...

Africa is a continent in continuous transformation, with a sustained economic and population growth, a fast-paced urbanization and a young generation of talents who is leading its ...

Tunisia Looking For 400MW Battery Energy Storage System Project Mar 26, 2025 Battery Energy Storage System (BESS) Tunisia's Minister of Industry, Mines and Energy, ...

Will Tunisia reach 30% renewable electricity production by 2030? Tunisian official target to reach 30% renewable electricity production in its power mix by 2030 is highly conditioned by ...

On 5 and 6 February 2025, the MENALINKS programme officially launched its Battery Energy Storage Systems (BESS) workstream in Tunisia. The kick-off brought together over 25 high ...

The latest scale of side energy storage power station Following the landmark agreement with Saudi Electricity Company (SEC) in early 2025 for the world's largest 12.5GWh grid-side ...

SunContainer Innovations - Summary: Tunisia's energy sector is undergoing a strategic shift

---

toward renewable integration, with advanced energy storage solutions becoming critical for ...

New \$430 million World Bank-supported program to support Tunisia's efforts to expand renewable energy, improve electricity reliability, and strengthen sector governance.

Deploying Battery Energy Storage Solutions in Tunisia Authors RES4Africa Foundation: Paolo Cutrone RINA: Ali Kanzari, Emna Ben Mahmoud, Ahlem Ben Abidallah, ...

Africa is a continent in continuous transformation, with a sustained economic and population growth, a fast-paced urbanization and a young generation ...
