## US companies exporting solar modules

How is the solar industry growing?

The solar industry is expanding rapidly, with Chinese companies shipping the majority of modules while the US strengthens its domestic base. Global leaders like JinkoSolar, JA Solar and Trina leverage scale to dominate supply, while US firms such as First Solar, Qcells and Canadian Solar grow under supportive policy and rising demand.

Are solar panels made in USA?

Yes, solar panels are manufactured in the USA. In Q1 of 2025, about 8.6 GW of solar module manufacturing capacity was added to the record. Who is the largest manufacturer of solar panels in the US? First Solar is the largest manufacturer of solar panels in the US with a production capacity of 10.6 GW as of June 2025.

Which solar companies dominate the solar market?

Global leaders like JinkoSolar, JA Solar and Trina leverage scale to dominate supply, while US firms such as First Solar, Qcells and Canadian Solar grow under supportive policy and rising demand. Wholesale platforms like Sunhub Solar Trader, A1 SolarStore and EnergyBin provide buyers with tools to secure reliable, cost-effective modules.

How many solar modules are there in 2024?

Domestic solar module capacity rose 190 percent in 2024 to more than 51 GW and created over 33,000 jobs. Industry data show that 8.6 GW of new module capacity was added in Q1 2025. Despite this progress, the domestic supply chain remains incomplete.

Comprehensive guide to US solar manufacturing: capacity, major producers, supply chain analysis, and how to source American ...

In a significant milestone for India's renewable energy sector, solar photovoltaic (PV) module exports have surged over 23-fold from ...

Radiant is also in talks with another US-based company for exporting a total of 300 MW solar modules which now sources panels ...

A current list of U.S. solar panel manufacturers that produce solar panels for the traditional American residential, commercial and utility ...

Discover the leading 20 U.S. solar manufacturers driving clean energy in 2025. Explore company info, specialties, and contact details.

Between fiscal years 2022 and 2024, India increased its import of solar modules 23-fold, primarily to the US, says IEEFA and JMK ...

Radiant is also in talks with another US-based company for exporting a total of 300 MW solar modules, which now sources panels from Indonesia and the Philippines.
