## Uninterruptible power supply for garage

Do you need an uninterruptible power supply (UPS)?

A power failure is more than an inconvenience--it can knock out essential equipment for hours on end. If you have important electronics that have to keep running when the power's out, you'll need an uninterruptible power supply (UPS). Many smart devices have built-in battery packs, with modern laptops packing enough cells to last a whole day.

Does Smart-UPS provide a specific size garage door opener?

The Smart-UPS product line produces the pure sine wave. If you provide power requirements of the garage door opener, perhaps we could provide a specific size UPS. However, one thing to note is the UPS will provide power as soon as utility power is lost, so the UPS may exhaust all of its battery power before you return home to open the door.

How does a garage door opener work with an ups?

For a garage door opener, the UPS would install on the garage ceiling and plug into the outlet where the opener would normally plug in. From there, plug the opener in the UPS for back-up power.

What is 3 phase UPS power protection?

3 Phase UPS power protection, solving today's energy challenges while setting the standard for quality and innovation with fully integrated solutions for enterprise-wide networks, data centers, mission-critical systems, and industrial/manufacturing processes. Replacement battery cartridges (RBC) for Back-UPS, Smart-UPS and Smart-UPS on-line.
