## Usb c power station in China in Pretoria

What is a USB Type C port?

The USB Type C port supports the Power Delivery (PD3.0) specification with voltage / maximum current combinations of 5V/3A, 9V/3A, 12V/3A, 15V/3A and 20V/3A, so suitable for charging all types of type C enabled devices including laptops, tablets and phones at up to 60W per port. Over voltage, short circuit and overload protection as standard.

Where do zioxi power station hubs fit?

The power station hubs fit perfectly in the centre of a group of tables such as the zioxi t41 range. A wired mains connection to a single floor or wall socket is required during use. Please see the zioxi Rechargeable powerHubs for a truly flexible, battery based AC mains & USB-C power solution.

What is a zioxi wired PowerHUB?

The zioxi Wired powerHubs are mobile power stations which provide up to 12 AC mains & USB power and data sockets at table height, and connected to a floor or wall socket AC power source. Great for keeping a space flexible and adaptable. Key features: A wired connection to an AC mains power socket required during use.
