
Uzbekistan power grid energy storage equipment procurement

Who is responsible for power plants & grids in Uzbekistan?

Thermal Power Plants JSC, Main Electric Networks of Uzbekistan JSC and Regional Electric Networks JSC are jointly responsible for the design, construction, installation and commissioning works in conjunction with the repair and maintenance of the main equipment and accessories of power plants and grids.

Who is national electric grid of Uzbekistan?

The joint-stock company "National Electric Grid of Uzbekistan" was established in accordance with the Decree of the President of the Republic of Uzbekistan dated March 27, 2019 No. PP-4249 "On the Strategy for the Further Development and Reformation of the Electric Power Industry in the Republic of Uzbekistan".

Do Uzbekistani power purchasers provide exchange rate compensation?

Although Uzbekistani power purchasers often commit to providing exchange rate compensation in agreements, obtaining foreign currency within Uzbekistan has remained challenging since the removal of exchange controls in 2017.

How does the power purchase agreement reform affect Uzbekistan?

This reform directly affects the contractual structure of power station investment in Uzbekistan by splitting the power purchase agreement (PPA). Previously, PPAs encompassed the purchase of electricity along with grid services in a single agreement.
