
Vaduz solar Tiles

What is a solar roof tile?

The solar roof tile replaces conventional roof tiles and integrates seamlessly into the roof structure. Solar roof tiles from Schweizer are mounted directly on the roof battens, similar to traditional roof tiles. This eliminates the need for an additional substructure.

Where to go solar in Grimentz?

In the Grimentz area, a chalet goes solar. Integrated solar roofs - Freesuns, a company located in the canton of Vaud, has developed a revolutionary solar roof tile. Freesuns produces, installs and sells its photovoltaic tiles.

Who makes solar roof tiles?

Stay tuned for more updates on this exciting project. Freesun designs, produces and installs solar roof tiles from its headquarters in Colombier, Vaud, Switzerland. The solar roofing company is active in BIPV.

How much solar energy does Vaduz produce a day?

In summer months, Vaduz experiences peak solar energy production with an average daily yield of 5.71 kWh/kW due to longer daylight hours and higher sun position in the sky. The energy production slightly drops in spring to an average daily output of 4.85 kWh/kW as sunlight duration decreases gradually.

With our solar tiles, we have completed various solar roofs in Switzerland: individual villas, commercial, historical or protected buildings.

The princely residence presides high above the little town of Vaduz, which is the capital of the principality and has about 5,000 inhabitants. The medieval castle was upgraded in the 16th ...
