
Vatican Solar Container 60kWh Financing Scheme

Why did Pope Francis ask the Vatican to build a solar farm?

Pope Francis last year asked the Vatican to study developing the area into a vast solar farm, hoping to put into practice his preaching about the need to transition away from fossil fuels and find clean, carbon-neutral energy sources. Pope Leo XIV visited the site in June and affirmed that he intended to see Francis' vision through.

How will the Vatican's new energy system work?

According to the Vatican's press office, the installation will apply the most advanced solutions currently available, balancing clean energy generation with the preservation of agricultural use, the region's hydrogeological stability, and the protection of its cultural and archaeological heritage (ZENIT News / Rome, 08.01.2025).-

Will Italy turn a 430-hectare field north of Rome into a solar farm?

(Yara Nardi/Pool Via AP) ROME (AP) -- Italy agreed Thursday to a Vatican plan to turn a 430-hectare (1,000-acre) field north of Rome, once the source of controversy between the two, into a vast solar farm that the Holy See hopes will generate enough electricity to meet its needs and turn Vatican City into the world's first carbon-neutral state.

Why did the Holy See build an agrivoltaic system in Santa Maria di Galeria?

On July 31, at the historic Palazzo Borromeo, the Holy See and the Italian Republic signed a landmark agreement to build an agrivoltaic system in Santa Maria di Galeria. More than a technical feat, the initiative is a spiritual and diplomatic gesture--anchored in the conviction that caring for creation is a moral imperative.
