
Victoria PV panel prices

How much do solar panels cost in Victoria?

So, say you go for a 6.6 kW system (the most popular size right now), you're looking at somewhere between \$6,600 and \$9,000 before incentives. Across Victoria, the solar panel installation cost VIC is in the same ballpark. Rural homes can sometimes be a bit pricier because of transport and fewer local installers.

Is Victoria a good place to install solar panels?

Even with fewer sunny days than northern states, Victoria is a great place for solar with state government rebates complementing federal incentives for residential solar installations. With Victoria's Solar Homes Program providing some of the most generous rebates in Australia, installing solar panels is more affordable than ever.

Why are there so many solar installers in Victoria?

With the great benefit of solar panel systems with the state government rebates, more and more of the homes in Victoria are opting for solar power. This has resulted in a steep increase in the demand of solar installers in Victoria. The concentration of solar systems is mainly seen along the coastal line of Victoria starting around Melbourne.

How much does a solar PV system cost in Melbourne?

Grid connection and paperwork. To give you a rough idea, the solar PV system cost Melbourne usually works out at around \$1,000-\$1,400 per kilowatt before rebates. So, say you go for a 6.6 kW system (the most popular size right now), you're looking at somewhere between \$6,600 and \$9,000 before incentives.
