
What are the 5G outdoor base stations in Maputo

Where is Vodacom launching 5G services in Mozambique?

Maputo, capital city of Mozambique. (Image source: Shutterstock) Vodacom has launched Mozambique's first 5G network. The mobile network operator plans to deploy 5G services at selected sites in Maputo, Matola; the central area of Nampula; downtown Nacala, Manhava, Maquinino and Chipanga neighbourhoods; Beira; and Tete.

Should 5G base stations be tripled?

To cover the same area as traditional cellular networks (2G, 3G, and 4G), the number of 5G base stations (BSs) could be tripled (Wang et al., 2014). Furthermore, Ge, Tu, Mao, Wang, and Han, (2016) suggested that to achieve seamless coverage services, the density of 5G BSs would reach 40-50 BSs/km².

How will 5G impact Mozambique?

The telco's CEO, Nuno Quelhas stated that 5G would help improve the quality of life and promote the growth of the youthful population. "5G would help to expand financial inclusion in Mozambique, as the aim is to cover 75% of the adult Mozambican population by 2025 and make payments through M-Pesa available anywhere in the country," he added.

What is the location optimization approach for 5G BS?

The location optimization approach for 5G BSs aims to cover the service demand area with the minimum number of BSs or to maximize the service coverage area of a given number of BSs. To solve this typical coverage problem, an MCLP model was employed for the location optimization of 5G BSs.
