
Where is the Majuro Hydrogen Energy Station

How many hydrogen refueling stations will Shanghai have by 2025?

Shanghai recently released the roadmap for the growth of its hydrogen energy industry.

According to the "Shanghai Hydrogen Energy Industry Development Medium and Long-term Plan (2022-2035)" issued by the Shanghai Municipal Development and Reform Commission, the city intends to establish around 70 hydrogen refueling stations by 2025.

What is the International Hydrogen Energy Valley?

The International Hydrogen Energy Valley in Shanghai's Lingang Special Area aims to exceed a 20-billion-yuan scale in the hydrogen fuel cell industry by 2025. It seeks to become a world-class fuel cell vehicle innovation center and an industrial hub supporting Lingang Special Area's pioneering zone for hydrogen energy development.

Who provides hydrogen refuelling stations?

ALHP provided hydrogen refuelling stations for commercial and passenger vehicles integration solutions for Sinopec Group and Shenergy Group and the world's largest hydrogen refuelling station in Daxing Beijing.

Why does Majuro need a new power system?

In order to stabilize power service, the Marshalls Energy Co. was forced to import more than half-a-dozen rental containerized generators last year that currently provide the backbone of Majuro's power. International donors and the Marshall Islands government have lined up to fund a huge overhaul of the power system for Majuro.
