# Where to buy solar container outdoor power in Sydney Australia

What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects--all while reducing carbon footprint and cutting energy costs.

What is a solar container build?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system. What's included in a solar container build?

What solar products do you sell?

We keep a massive stock of solar panels, solar regulators, wind generators, deep cycle batteries, Lithium batteries, power inverters, inverter chargers, battery chargers, solar pumps, mounting frames, accessories, solar, wind or hybrid remote area or grid connected power systems and more.
