# Which backup uninterruptible power supply is the best

What is a good ups with a built-in backup battery?

A UPS with built-in backup batteries is essential for protecting your devices from power outages, surges, and other electrical disturbances. Whether you opt for the high-capacity APC Back-UPS Pro 1500VA or the compact and budget-friendly Vertiv Liebert PST5, each UPS on this list offers reliable protection and peace of mind.

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) keeps your essential devices temporarily online, which provides a window for you to hit send on that last-minute email. While a standard power strip or surge protector offers sufficient, albeit basic, protection, a UPS ensures devices are properly shut down and are protected from data loss.
