# Which company is the best for energy storage solar projects in Ethiopia

Is solar a viable option in Ethiopia?

But our previous study identified that the policy makers in Ethiopia believe that solar is too costly and not a viable option. The current electricity tariff in Ethiopia is highly subsidized and one of the lowest in Africa. The tariff depends on the monthly energy consumption and varies among user classification.

Is there a private investment in solar power plants in Ethiopia?

However, there was no private investment in solar power plants in Ethiopia. Mainly the Ethiopian Electric Power Corporation (EEPCo) has been a state-owned and vertically integrated monopoly that controls the market from generation to selling of electricity throughout the country .

What are the major energy projects in Ethiopia?

In the energy sector, Ethiopia's major projects include the Great Ethiopian Renaissance Dam (6000MW), Gilgel-gibe III (1,870MW), and Genale Dawa III (254MW) hydropower projects. Additionally, there are the Adama and Ashegoda wind power projects.

Ethiopia is emerging as a solar energy hotspot in Africa, with photovoltaic (PV) energy storage projects playing a pivotal role in its renewable energy transition. This article explores Ethiopia's ...
