# Wholesale Price of 30kWh Solar Containerized PV Units in Tehran

Can a 30kW Solar System pay for itself?

You can sell excess energy to your utility: it is called net metering and it's the main way in which a 30 kwh solar system pays for itself. While off-grid commercial systems of such a scale are a rarity, a 30kw solar system with battery storage can be a good choice if you want to have a hybrid system.

Where can I buy a 30 kW solar system?

Featuring daily updates with the lowest prices on solar panels, SunWatts has a big selection of affordable 30 kW PV systems for sale. These 30 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions.

What is a 30 kW solar system?

These 30 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions. These are complete PV solar power systems that can work for a home or business, with just about everything you need to get the system up and running quickly.

Is a 30kW Solar System a good choice?

While off-grid commercial systems of such a scale are a rarity, a 30kw solar system with battery storage can be a good choice if you want to have a hybrid system. Batteries in this configuration will serve as a backup in case of a power outage in the grid.
