
Windhoek Outdoor Communication Power Supply BESS Supplier

What is a Bess solution?

WEG's world class BESS solutions are capable of either co-location with variable renewable sources(PV or Wind) to reduce intermittency in supply,as well as stand-alone applications to address a host of reliability and stability issues on the grid.

Why do we need a Bess system?

By doing so, it ensures that energy resources are utilized more efficiently, minimizing waste and improving the overall efficiency of energy production and distribution. The BESS also offers significant operational flexibility, allowing it to adapt to varying energy demands and supply conditions quickly and effectively.

What type of water tank does solsquare Namibia use?

A 20,000L stainless steel tank(non pressure tank) manufactured locally according to CTS design,acts as the buffer tank for the daily water requirement. A total of 120 flat plate collectors supplied by Solsquare Namibia with a total surface area of 300 m2 are connected by means of a 450kW Alfa Laval flat plate heat exchanger to the water tank.
